EXCITEMENT OVER OIL DISCOVERY

The First Well Struck Flows Seventy-five Barrels a Day by Pumping

By Associated Press.

LOS ANGELES, Cal., July 20.—A dispatch from St. George, Utah, where discoveries of petroleum were recently made, caused great excitement here. Oil locations are at fever heat and twenty-five locations have been made in the vicinity of Virgin, covering an area of 231 square miles, although it is stated many of the locations overlap. Drilling began June 24 and a flow of oil was struck July 13 at a depth of 566 feet. The first well is said to flow seventy-five barrels a day by pumping. The oil is high-grade illuminating oil, its specific gravity being 42. But little water was encountered and it caused no trouble. The original well is located twenty-eight miles from St. George and will be sunk to a greater depth.

Meeting of Spanish War Veterans

A largely attended meeting of Camp Buckey O'Neill, Spanish War Veterans, was held last night in Fireman's hall. The meeting was held for the purpose of reviving interest in the organization and bringing into it all the veterans of the Spanish-American war, of whom there are some fifty-five or sixty in Globe. Commander Gillman presided and after the regular business was disposed of, cigars were passed around and an hour was pleasantly spent by the veterans relating their war experiences. Another meeting will be held next Saturday evening.

The First National bank is now located in its new home and cordially invites all to come in and look through.
